

Guillotine 560

- Compact, non-slip and safe: the ideal entry-level guillotine for hobby use
- Sturdy solid metal table with rounded edges and non-slip rubber feet for firm standing
- Handy recessed grips for safe and easy transport
- Format lines on the table to help align materials, with handy mm scale along the cutting edge
- Work comfortably thanks to the ergonomic handle optimised for power transmission from above
- Upper blade made of ground and hardened Solingen steel bolted to the solid steel blade holder
- Bolted, ground and hardened lower blade made of Solingen steel
- Both blades made of high-quality Solingen steel
- Sturdy, solid-steel blade holder for optimum guidance of the screw-mounted upper blade
- Transparent blade guard for cutting safety and unobstructed view of the item being cut
- Manual clamping with integrated finger guard to securely hold the item being cut
- Two scale bars with mm scale for an exact 90° cut
- Adjustable magnetic backstop for fast format finding, can be used on both scale bars

Suitable spare parts	Back stop Dahle 611

*The indicated sheet capacity for cutting machines is due to standard paper weight of 80 gsm but is still subject to texture, quality and state of paper. All of such information is based on the general formula 10 sheets = 1 mm stack height and may only be used as an aid to orientation for the selection of the cutting machine.
